## Switzerland

### Premium Jet Charter Fleet and Service Enlargement

Zurich-headquartered Premium Jet AG has added three new aircraft, one Embraer Phenom 100, one Cessna Citation Excel and one Cessna Citation Ultra, to its proven Swiss AOC.

Premium Jet has also recently entered into a joint venture with an EU operator, giving its customers the freedom to choose between its Swiss and an European AOC (with Premium Jet conducting the "daily work" and being the customer's single point of contact).

"The three new aircraft are an important and exciting step for us by providing our customer more flexibility and possibilities" says **Marcel Wepfer**, Director Sales & Marketing of Premium Jet.

"The addition of more aircraft - amongst others 3 heavy jets - is in process and we are optimistic to soon being able to announce the next step that strengthens our position in the European Charter market." adds CEO, **Peter Hartmann**.
